- Times are very flexible depending on the infants' needs for naps, bottles, and diaper changes.
- Diapers are changed every 2 hours or as needed, at the parent's request. Diapers should be changed before the child departs.
- A daily chart will be kept of the infants' day for parents to access at pick up time.
- Morning & Afternoon Activities – designed to meet the individual child's needs, activities may include: reading books, free play, sensory and gross motor activities and tummy time.
- For a child who cannot move without help, staff will offer to change the places and positions of the child at least every 30 minutes or more frequently depending on the child's individual needs.
